

Thank you for registering with us. In order to use our services we have created a Government Gateway account on your behalf.

Above is your Government Gateway User ID. Keep this User ID safe and do not share it with anyone.

The Government Gateway is the UK's centralised registration service for e-Government and allows this User ID and your selected password to be used to access online services across government.

Some government services need to be activated before you can use them. For these services, a letter confirming the Activation code and instructions on how to activate the service will be sent to you. You cannot activate a service with this User ID.
